All those who are eligible and willing can make use of the extended period.

On scrutinizing the online applications, it is felt that the following points may help the parents to apply/verify/edit:

1. The server may get very busy on the last day. So, parents are requested to apply/edit at the earliest.
2. While applying, parents may go through the given instructions carefully and provide details accordingly.
3. The **children and grandchildren of JIPMER employees** may select the option "**Transferrable Employees of PSU/IHL sponsoring the school**" against SERVICE CATEGORY (father or mother or both, if applicable). In the case of grandchildren, grandfather's/grandmother's name may be mentioned in the place of father's/mother's name.
4. Parents who belong to any of the **categories like OBC (non-creamy layer) /S.C/S.T/EWS/BPL/differently abled and whose residence is within 5 kms. from the school are eligible to apply under RTE (Right to Education) and may tick against RTE (sl.no.18 in the application form) as YES and mention the distance from school.** Such applications will be included in a draw of lots. However, RTE applications will also be considered separately as per service category.
5. Transfer details: This is applicable **only to central state government departments and undertakings. Transfer in private service will not considered.** Transfer from one place/urban agglomeration to another which is at least at a distance of 20 kms and for a minimum period of six months only will be considered.
6. All relevant details like the names of both the parents etc. must be provided. Single parents, however, can fill only their name and service details, if they wish to mention so.

The said points are provided just with a view to sensitize the parents to some important points. Any defective/incomplete application is liable to get rejected. Therefore, parents are requested to refer to the admission guidelines and instructions provided in the official website of KVS and OLA portal **only** for authentic information.
